

December 04, 2025: Letter to City Council

I am writing again to inform you that our San Antonio Police Department is using their sirens and police personnel to engage in an ongoing psychological warfare operation to intimidate me within my home.

A few years ago, I was elected to represent my neighborhood as the 'Precinct Committee Chair' of the Republican Party of Bexar County, Texas.

Since that time, my house has been under the ongoing surveillance operation of the current President of the United States, Donald Trump.

I am writing, again, to alert your office that the San Antonio Police Department is being used as a prop to engage my home in threatening and intimidating actions that intrude into the peace and tranquility of my home.

The method by which this operation is continuing is through the use of acoustic agitations that are being 'symbolically' pushed into my home to coincide with important research that I am performing related to signs and symbols of various cultures, communities, and time periods.

I am writing to, once again, alert your office and City Council in general that the San Antonio Police Department is participating in an ongoing operation of intimidation against innocent citizens of the community as a method of intimidating them from producing the type of work that will expose a very serious criminal operation that has been ongoing for a very long time.

I am writing to inform you of both the existence of a well-entrenched criminal operation that is stemming from inside of the United States military and of the use of the San Antonio Police Department as an arm of that ongoing criminal operation.

Please feel free to contact me for additional information.

I am happy to provide details of proof regarding everything mentioned in this email.

Otherwise, please circulate this information to other members of the San Antonio City Council to alert them of the very serious problems that are developing within the jurisdiction of their governmental operations.

Submission complete

Thank you for contacting District 1.
